Terra Collection
Recycled Outdoor Rugs

Our drive to make
the future more sustainable

Made-to-measure rugs created using plastic bottles
recovered from the oceans.

[EN]

Based on the reutilization of recycled materials, it is 100% manufactured in Crevillent where we use solar power generated on site to ensure our productive processes require a minimal utilisation of fossil fuels.

In this process, we are upcycling waste, giving a creative reuse and a second life to PET bottles.

[ES]

Colección basada en la reutilización de materiales reciclados y fabricada al 100% en Crevillent, donde utilizamos energía solar generada in situ para garantizar que nuestros procesos productivos requieran una utilización mínima de combustibles fósiles.

En este proceso, estamos reciclando los residuos, dando una reutilización creativa y una segunda vida a las botellas de PET.
