

MISTER KARTON

SHINE
WITH US

“...We offer people sustainable design solutions without losing a fine and elegant look...”

“...Ofrecemos a las personas soluciones de diseño sostenible sin renunciar a una estética cuidada, fina y elegante...”

Mister karton is a company based in Barcelona, Spain that specializes in Cardboard Projects and high-end quality products that are both ecological and avant-garde.

Mireia Carles and Martin Carranza, both trained designers, have a long trajectory working on Interior Design projects for the world of cinema, publicity, events, shops and even offices. They also feel an on-going responsibility to use materials, which are sustainable and smart.

They founded Mister karton in 2012 based on the idea of sustainability, or ecological design, to ensure a minimum environmental impact by using materials, which are reusable and recyclable. They took an apparently humble material such as cardboard and by using digital manufacturing techniques and an artisan assembly, they transformed it into a range of modern, innovative and beautiful range of products.

Mireia and Martin have a genuine passion for what they do by creating good-looking products that are both joyful and responsible. They also believe in creating an open and warm relationship with their customers by working hand in hand with them in order to fulfil their every decorative need.

Mister karton products and projects are as decorative as they are sustainable.

Mister Karton es una empresa con sede en Barcelona especializada en productos de decoración de gran calidad, ecológicos y vanguardistas a la vez que en proyectos a medida usando el cartón como materia prima.

Mireia Carles y Martin Carranza son dos diseñadores con una larga trayectoria en proyectos de interiorismo para cine, publicidad, eventos tanto públicos como privados, tiendas y oficinas.

Su gran inquietud, y a la vez responsabilidad, siempre fue utilizar para estos proyectos materiales que fueran sostenibles, reutilizables y reciclables y es por ello que en el año 2012 fundaron Mister Karton, una empresa fusiona el mundo del diseño con el de cuidado del medio ambiente. Tomando un material aparentemente humilde como el cartón y mediante técnicas de fabricación digital y un montaje totalmente manual, consiguen una gama de productos modernos e innovadores.

Mireia y Martin sienten auténtica pasión por lo que hacen, lo que se traduce en una relación abierta y cálida con sus clientes, trabajando mano a mano con ellos para cumplir todas sus necesidades decorativas.

El resultado son productos y proyectos elegantes a la vez que sostenibles.

A blurred office desk scene. In the foreground, several silver paper clips are scattered on a light-colored surface. To the left, a portion of a wooden box with a decorative pattern is visible. In the background, a document with a blue stamp is resting on a light-colored surface. The overall lighting is soft and natural, creating a clean and professional atmosphere.

_OFFICE
