

ROJID

Modern & affordable lighting for hospitality spaces

Made for and by lovers of
professional interior design

We're game changers

We aim to democratize the market by creating affordable and on-trend decorative lighting that can elevate any space.

We believe that architecture and interior design professionals deserve impeccable, direct service without intermediaries.

Focus on materiality

Robin products feature noble materials such as wood, marble, cement or alabaster, but also innovative ones such as recycled plastic or 3D components. Adapting to different project styles means offering a wide variety of materials and finishes.

Designed & assembled in Barcelona

Most of our collection is locally assembled giving us control, attention to details and quick time-to-market. We embrace the creative talent of the city of Barcelona, a reference hub in design.

Top-notch service

Our vision is to combine great products with excellent service and flexibility that our partners expect. We believe that technology is the key to delivering this vision. We invite you to visit our B2B portal for more information.

Professional support

Our team will guide you through the custom options and advise you on meeting the technical requirements of your project.

Taking great care of light

We strive to enhance lighting not only by taking care of the formal aspect, but also by recommending a controlled light output for optimal results.
