Quadra

Designed by Mario Ferrarini

Catalogue - EN

Mario Ferrarini

Mario Ferrarini was born in Como, Italy, in 1978.

Graduated in Industrial Design at the Politecnico of Milan he began practicing as a consultant for a number of renowned design studios. In 2007, he starts his own career opening a studio first in Como, Italy, and then in Lugano, Switzerland, working alongside international companies on different projects ranging from industrial products, furniture and interior design, supporting leading companies such as Antoni Lupi, Castelli, Crassevig, Desalto, de Sede, Franke, Jacuzzi, Ligne Roset, Living Divani, Poltrona Frau, Viccarbe and others.

The studio works alongside companies to create products that are timeless and transcend passing trends, targeted finding long-lasting solutions for clients with production aimed towards a large consumer market.

Balance is a principle goal in the global concept and products are a result of the technical, aesthetic and functional solutions they use in designing them aiming for purity, with the subtlety that defines the approach, attitude and orientation, and is part of their acclaimed distinguishing features.

QUADRA

Lightness & comfort

Designed by Mario Ferrarini, 2019

The Quadra collection was not designed in a day. No good design appears by chance. Perhaps the idea does, but then it is a matter of making it a piece of art. From the very first moment, this chair has been able to inspire love at first sight. Because almost without knowing it, it was born an icon. It took shape in an exercise of drawing on paper, with the same skill as an architect's sketch, with the same language and proportions.

Quadra emerged from a very light structure visually, but

fully capable of resisting the passage of time with firmness, being perfectly prepared to be placed in all types of spaces and projects. In the words of Mario Ferrarini.

"I was interested in approaching the Viccarbe team by working on the concept of a chair that is both minimalist and surprising. A chair that, in essence, could escape the standards of a product category that is extremely saturated with proposals. Becoming a recognizable piece beyond its use and functionality."

Featuring Quadra chair in matt oak and ash finish

Quadra has the
possibility of stacking
10 units in a completely
vertical position

One of the most surprising aspects of the chair is the possibility of stacking 10 units in a completely vertical position. Turning a 100% functional feature into a real standout point.

ESSENTIAL LINES

Quadra has continued the journey of the Viccarbe collection in recent years: being able to perfectly balance simplicity with durability, versatility with the personality of the great icons.

“The chair is inspired by a dance of two figures, turning in complete harmony, in dialogue, embracing. A ‘pas de deux’ between a technical, metal, functional, slim structural core, and the warmth of wood. Dressed differently, the two bodies display a sense of alchemy from every angle. Just like the compass of the architect and the paper on which he draws.”

Quadra evolves and offers the possibility of incorporating upholstered cushions. It provides greater user comfort while maintaining the chair's iconic shape.

Quadra & Mix

Collaborative spaces — From the very first moment, Quadra has been able to inspire love at first sight. The chair is a convenient option for projects that require excellent functionality and durability, and can additionally be stacked in large quantities, saving space where required.
