Vincent Van Duysen

Vincent Van Duysen was born in Lokeren, Belgium, in 1962, and undertook a degree in Architecture at the Higher Institute of Architecture Sint-Lucas, Ghent. Between 1986 and 1987 Van Duysen worked in Milan collaborating with Aldo Cibic - Sottsass Associati, after which, in 1990, he opened his studio in Antwerp specializing in architecture and interiors.

A strong relationship exists between Van Duysen's designs and his architectural projects - he chooses to develop furniture and objects from an architectural perspective - creating spatial relations rather than shapes. A rescaled interpretation of his architectural work, Van Duysen creates pieces that provide a sense of purity and essentialism, yet remaining tactile and grounded.

WINDOW

Not only complementary elements

Coat hanger & umbrella stand designed by Vincet Van Duysen, 2006

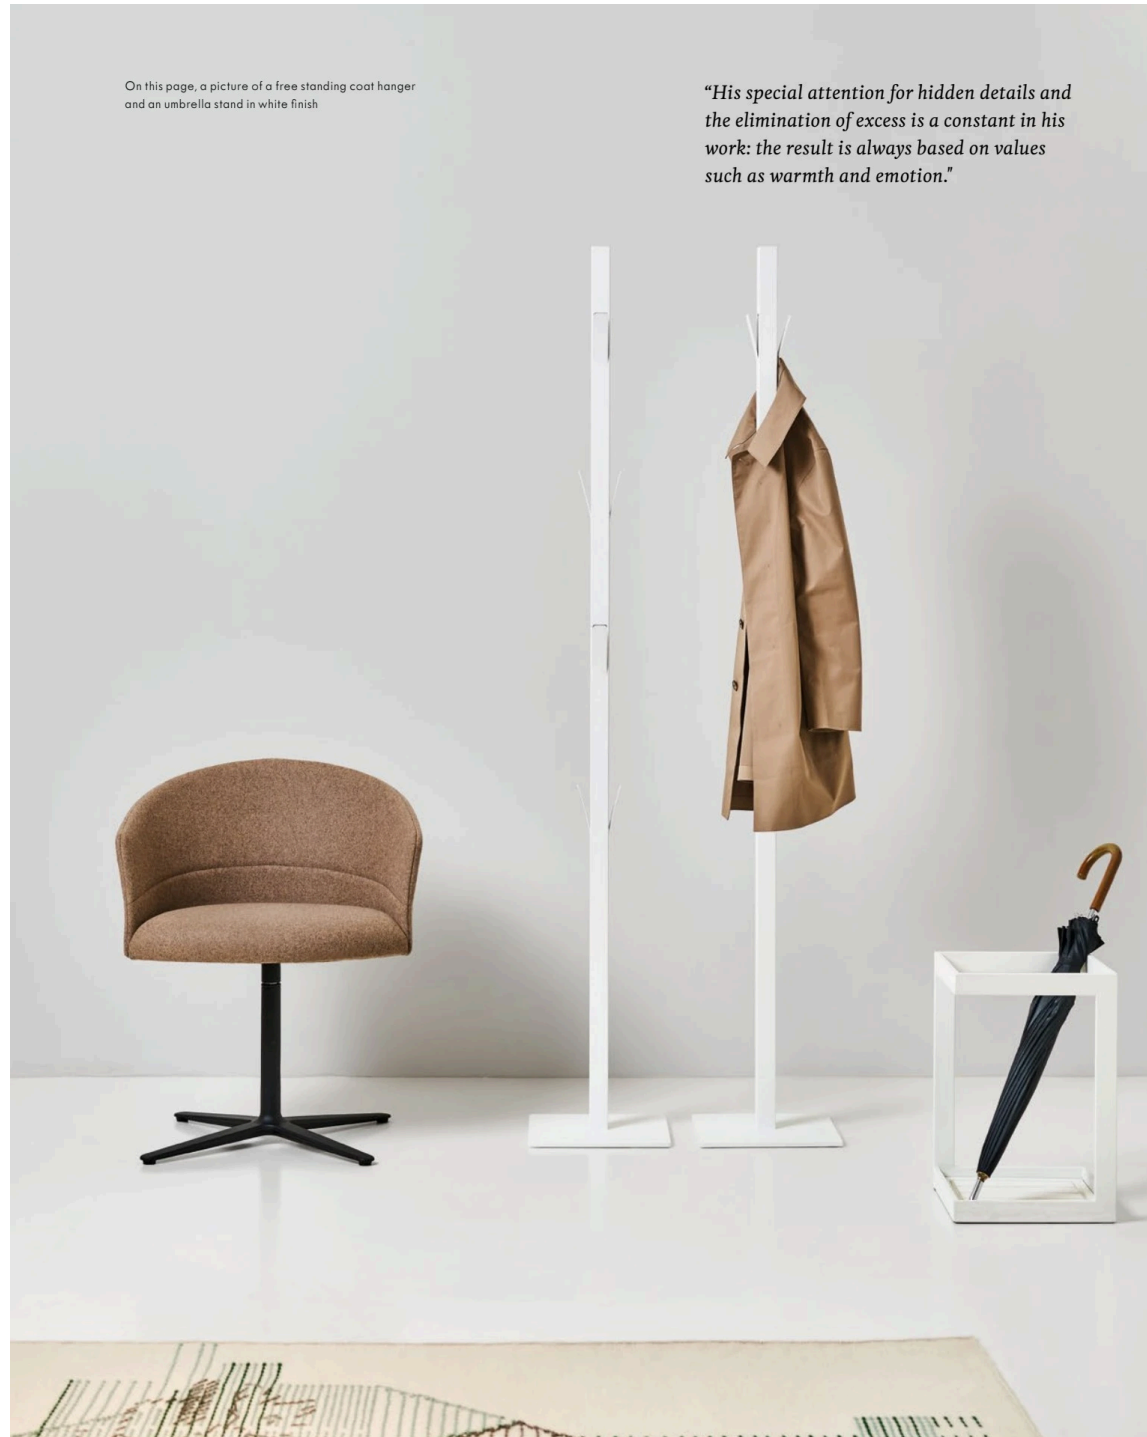

This collection of coat racks and umbrella stands materializes the usual serenity and sensuality of the pieces conceived by the architect Vincent Van Duysen.

Inspired by Donald Judd's minimalist sculptures, the 'windows' of the rack were carefully designed for the proper care and hanging of clothes. His special attention for hidden details and the elimination of excess is a constant in his work: the result is always based on values such as warmth and emotion. Let's talk about visual poetry.

On this page, a picture of a free standing coat hanger and an umbrella stand in white finish
